Please return an inventory form and your player rating sheet to your age-group coordinator as soon as each season is over (Fall or Spring).

An accurate inventory of assets is necessary (both number and condition) to replace only that which has outlived its usefulness. Otherwise, we have a very difficult time estimating the amount to budget for replacement equipment when setting registration fees for the next year.

The rating sheets are important for assigning evenly matched teams in the future. The recreational program strives to field evenly matched teams in order to maximize the soccer experience for our players -- your assistance and cooperation is greatly appreciated.
